COMPLETION OF THE BRITISH MUSEUM.

THE PEOPLE'S ILLUSTRATED JOURNAL,

NO. 3, PRICE 3d., CONTAINS THE FIRST OF A SERIES OF ARTICLES ON THE

New Buildings of the British Museum, with seven Engravings.
Crystals; Their Forms, and Future (Illustration).
Medieval Art (four Engravings).
The Rotherhithe of London (Illustration).
Progress of Schools of Design.
The Royal Academy and the Arts.

And Various other Articles, thirteen handsome quarto pages and fourteen Engravings. Twopence Weekly.

Office, 11, Bouverie Street; and all Booksellers and Newsmen in Town and Country.

NOW READY, Price 10s.

HYDRAULIC AND TIDE TABLES,

TO AID THE CALCULATION OF WATER AND MILL POWER, WATER SUPPLY, DRAINAGE, AND NAVIGABLE RIVERS; WITH SYNOPSIS OF RAIN-FALL IN GREAT BRITAIN.

Together with

THE PROPERTIES AND STRENGTH OF MATERIALS; USEFUL NUMBERS; POWERS, ROOTS; AND LOGARITHMS.

BY NATHANIEL BEARDMORE,

Member of the Institution of Civil Engineers.

The First Edition of this Work was received with much greater favour than the author had at all expected; and the sale was large, for an technical a work. To extend the use of this edition as a hand-book for the Engineer, in matters relating to Hydraulics and Hydrostatics, many new Tables have been constructed, and Tide Tables are inserted at the close of the book, chiefly compiled from the data offered in the Admiralty Tide Tables and from the Nautical Almanac.

The introductory remarks on the use of the Tables, have been amended, and more information is interwoven, chiefly on our English rivers—the drainage areas of the more important of which have been especially computed from the Ordnance Map. In the original remarks on tides and rivers, experience and practice are the great guide; and therefore, to obtain the best data for practical results we have carefully collated all the well-authenticated data within our reach or personal experience, and had them condensed into tabular forms.—*Preface to Second Edition.*

WATERLOW and SONS, Parliament-street, Westminster; Birchin-lane; and London Wall, City;
WEALE, 59, High Holborn; BLACK, Edinburgh; J. and J. THOMSON, Manchester; WEBB and HUNT, Liverpool;
ARMENGAUD, Aîné, Paris.

ARCHITECTURAL PUBLICATION SOCIETY.—The First Part of the Works for the Year 1851-2, containing "ARASTOLE" and other subjects, is ready for delivery. The works for the year 1850-1, containing "Cathedral Architecture, During Queen Ann" &c. can be obtained by new members.
WYATT PAPWORTH, Hon. Secretary.
14a, Great Marlborough-street, May 11, 1852.

MURRAY'S CONTINENTAL HANDBOOKS. ADVERTISEMENTS intended for insertion in the Quarterly issue of MURRAY'S HANDBOOKS FOR TRAVELLERS ON THE CONTINENT, must be forwarded to the Publisher before the 20th of May.
50, Albemarle-street, London, May 10, 1852.

TO ARCHITECTS, BUILDERS, &c.

THE CHEMICAL RECORD contains every week an Article on the CHEMISTRY of BUILDING MATERIALS. The subject of the forthcoming number, Saturday, May 15, will be "The Theory of the Action of Lime as a Building Cement." Price 3d.; stamped, 4d.
ODOKE and WHITLEY, 20, Paternoster-row.

This day is published, price One Shilling,

ARTISTIC ANATOMY of the Human Figure. By HENRY WARREN,
Professor of Drawing at Queen's College, London, and President of the New Society of Painters in Water Colours.
With Twenty-three Illustrations, drawn on Wood by the Author, and Engraved by Walter G. Mason.
Winsor and Newton, 38, Rathbone-place, and sold by all Bookseller and Artists' Colourmen.

On the 20th will be published, price 6s. 6d.

SCHOOLS and SCHOOL-HOUSES; a Series of Twenty-seven Plates of Views, Plans, and Details, applicable to Rural Parishes.
Dedicated, by permission, to the Lord Archbishop of Canterbury, and the Lord Bishop of Rochester and Oxford.
By JOSEPH CLARKE,
Architect to the Diocesan Board of Education of Canterbury.
Rochester, and Oxford.
Published by JOSEPH MASTERS, Bond-street, and GEORGE BELL, Fleet-street, London; J. H. PARKER, Oxford.

A NEW LONDON WEEKLY NEWSPAPER, OF LIBERAL POLITICS, PRICE FOURPENCE,

Will be published on Saturday, the 15th of May. A beautiful Print, the Oaken of THE DUCHESS-LOUISE, painted by Alfred Elmore, A.R.A. and engraved on steel by Francis Holl (both lighted at One Guinea), will be presented GRATIS, to subscribers, with the fifteenth number.

THE LONDON WEEKLY PAPER, and ORGAN OF THE MIDDLE CLASSES. A record of Political, Domestic, and Foreign News, Literature, Arts, Science, &c. Under the direction of WILLIAM JERDAN, Esq. (late Editor of the Literary Gazette). Orders will be attended to by all Booksellers throughout the United Kingdom; or the Publisher will send it direct upon the receipt of a quarter's subscription, 4s. 6d. Money orders to be made payable to FREDERICK FALLER, 1, Crane-court, Fleet-street.—For particulars see Prospectus.

THREATENED DEMOLITION of the CRYSTAL PALACE.—In consequence of many thousands of persons in the United Kingdom having been unable to obtain a copy of the GREAT EXHIBITION CHART, printed in colours, and presented by the Proprietors of the WEEKLY DISPATCH to their Subscribers and the Public, in the months of January and February last, a RE-ISSUE has been determined upon, to take place on SUNDAY, the 16th of MAY.

The Chart, which has undergone a careful revision, shows by simple diagrams the number of persons that visited the Exhibition daily; the amount of money taken at the various entrances; the quantity of refreshments consumed; the nature of the Royal Commission; an account of the origin of the Palace, and its dimensions in full.

In order that every individual in the country may possess this emotional relict of curious and interesting results, to mark the demolition of the building, and to serve as a memento of its existence, the Chart will be delivered GRATIS to every Subscriber and Purchaser of the DISPATCH on the day stated.

*** The DISPATCH is published at Four o'clock every Saturday morning, in time for the first railway trains leaving London, and for the morning mails.

Early orders should be given to all Newsvendors, in Town and Country; or to Mr. E. J. WOOD, 5a, 12b, Fleet-street.

N.B.—The News Agents will have a copy of the Chart with every DISPATCH of May 16th.

DEFEAT OF THE GOVERNMENT ON THE FORFEITED SEATS.

A new edition, in 18mo, with numerous Engravings, price Sixpence, sewed.

KEW GARDENS; or, a Popular Guide to the Royal Botanic Gardens of Kew.
By Sir W. J. HOOKER, K.H., D.C.L., F.R.A. & L.S. &c. Director.
London: LONGMAN, BROWN, GREEN, and LONGMANS.

LEONARDO DA VINCI.
Just published, in 8vo, 8vo, price 6s. cloth,

VILLA VEROCCHIO; or, the Youth of Leonardo Da Vinci: a Tale.
By the late DIANA LOUISA MACDONALD.

"In this most pleasing of historiettes, we have an episode from the life of one who carved out for himself the highest place among the great master-minds of his age. The scenery of the locality [the Val d'Arno and Florence], the manners of the day, the characters of the great men of that age, and the affections of the best of the world's race, which go far to console us for our sad lot here below, are sketched with a facility, a correctness, and a delicacy that fall not of carrying the reader, without a moment's stop, from the first to the last sentence of this little volume."—*Britannia.*

London: LONGMAN, BROWN, GREEN, and LONGMANS.

MERCHANT'S and TRADESMAN'S MUTUAL LIFE ASSURANCE OFFICE, 6, Chatham-place, Blackfriars, London.

JOHN MACGREGOR, Esq. M.P. Chairman.

The offices are open daily from Eleven to Three, and Six to Eight.

Forms of particulars forwarded on receipt of three postage stamps.

DEPARTMENT OF PRACTICAL ART.—The Museum of Ornamental Manufactures, and the Exhibition of the Decorative Works, will be opened to the Architectural Houses, Pall Mall, on Wednesday, the 19th of May. Admission from 10 to 4.—A course of lectures on the Principles of Design of the Furniture, Glass, Pottery Works, &c., in the Museum, will be delivered in June, by OWEN JONES, Esq. Fees for the Morning Course, 10s. 6d.; for the Evening Course, 1s.—Applications to be made to the Secretary for Tickets.

STAINING DEAL TO IMITATE ALL KINDS of WOODS. It requires no skilling, and will stand the exposure to the weather. Price 6s. per gallon. Varnished by W. HAYLOR'S Machine may be had at the Factory, 47, James-street, Oxford-street.

DAMP WALLS.—NEW PATENT PAINT, as applied on the THAMES TUNNEL, great natural adhesive and permanent inside or out, in quantities to finish 20 square yards for 10s.

PATENT LIQUID CEMENT for the fronts of houses, for beauty pre-eminent, giving the appearance of fine cut stone, and only costs half the cost of Oil Paint. In casks of 1, 2, and 5 cwt. at 6s., 10s., and 12s. each.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, 8s. Green and Blue, 9s. per gallon.

BLACK MINERAL PAINT, very permanent, half the usual price, only 3s. per Gallon.

NEW PATENT COLOUR for inside work, may be applied on Wood, Stucco, Cement, or over Oil Paint. No smell, and will dry in an hour. In casks of 1 cwt. at 14s.

G. BELL and CO., Steam Mills, 8, Wellington-street, Gorwell-street.

HUBBUCK'S PATENT WHITE ZINC PAINT.—The PERMANENT WHITE of the Ancients, by its continuous hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead paint.

Four years since the proprietors placed their manufacture on a large scale, and put this elegant Paint in competition with White Lead.

Its confirmed superiority over every other paint hitherto have brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic, and other deleterious material, alike injurious to health, deficient in body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors them should not be confounded with the original, even though sold under the pretence, that it is all the same.

Hubbuck's Paint is entirely free from any injurious properties whatever, it is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT;"

and if the cask has not been so marked, the reason is obvious.

The prepared White Zinc Paint also may be used for grinding in oil, also for use for porcelain cards, for paperers, for gate posts, and for plaster decorations, and the other purposes where it is used with size, gum, varnish, spirit, &c. &c.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This PAINT is superior in every respect to white lead; it is unequalled in whiteness, and grows very hard after it is applied, and is, therefore, for interior work, susceptible of a high polish. Besides, it is entirely free from all poisonous substances, is unaffected by sea-water, sulphurated hydrogen, or any gases, and preserves its original colour, which white lead does not do.

WHITE ZINC PAINT, among some of the outrages invariably committed by white lead upon the human frame; neither painter's cholic, nor paralysis, &c. &c. to which dangerous complaints workmen and manufacturers who use it are subject, and to which persons who inhabit newly-painted apartments are also liable. Since its introduction into the United Kingdom by the Patentees, the Admiralty and the most eminent professional men have given it their preference over any other paint. The public is cautioned, that if white zinc paint is adulterated, it becomes a very inferior paint, instead of a first-rate one, and peels or washes off on exterior work.

The VIEILLE MONTAGNE ZINC COMPANY imports largely from its works in Belgium WHITE OXIDE of ZINC in dry powder, and the casks bearing their mark, VM, are only to be considered as genuine, and may be obtained, for grinding in oil, at any of their Agents', residing in the following towns, viz.: London, Liverpool, Birmingham, Hull, Newcastle, Leith, Glasgow, Bristol, Plymouth, Norwich, Ipswich, Dublin, Cork, Belfast, and Jersey.

The same oxides ground "pure" to a White Zinc Paint, may be also obtained from the Company's Agents of the above-mentioned localities, as likewise from their Grinding Agents, Messrs. DEVAUX and CO., 6, King William-street, City, London; and Messrs. ROBT. ANDERSON and CO., Timber Bond, Leith, Scotland. Pure White Zinc Paint may likewise be purchased from Messrs. BLUNDEL SPENCE, and Co. Hull.

For further particulars apply to Mr. H. F. SCHMOLL, General Agent for the United Kingdom, at the Company's Offices, 19, Manchester-buildings, Westminster-bridge, London.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;
Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now proceed to bring this new and valuable preparation of Lead before their friends and the public, quite sure that it will not, in the present case, be condemned because it is new, and that if judged by its merits, it must make its way, and finally take its place as one of the important manufactures of this country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of thereabouts of Carbonic Acid, constituting what is called in chemical language, Carbonate of Lead. Now there is no reason to conclude that Carbonate of Lead is the only compound of lead valuable as a paint, and still less that it should be the best compound of lead for that purpose. In point of fact it is not so, for the newly-discovered Oxichloride is most, if not in all respects is far superior; its colour is brilliantly white, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of upwards of two years it has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief and by far the most important advantage it possesses is its remarkable and very decided superiority of Body; by which term the power of covering surfaces well and extensively, is understood among Painters. The attention of the discoverer was at a very early period drawn to this circumstance, and since that time, the best opportunities of observing have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed, in the large way, by various practical men, to ascertain, numerically, its covering power as compared with the best White Lead, and they have found the proportions to be as 80 to 100, that is, 80 lbs. of Oxichloride paint will cover as much surface as 100 lbs. of the best White Lead, the saving of cost being in the same proportion; besides this, the coating is thicker and more protective, both in and out of doors, as the Oxichloride dries into a hard, substantial layer, more like an enamel than Paint.

In using the Oxichloride, no alteration in the materials with which it is mixed is required. Its and Turpentine being employed as usual both for work indoors and outdoors, and for work intended to be varnished. For the use of Paper Hangers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company have strongly recommend this newly discovered substance to the notice of companies, both on account of its economy, and its intrinsic good qualities as a paint.

OFFICE IN LONDON.—Mr. R. COOKE, No. 7, Size-lane.

Office of the Washington Chemical Company,
73, Grey-street, Newcastle-on-Tyne, January 1, 1852.
